# User Guide of WorldPenScanGo

Switch on:

1. Turn on

● Press and hold the power button (on the side of the pen body) for about 3 seconds, and the screen will light up to display the menu interface.

- Screen
- Volume +
- Volume -
- Power Button
- Button B
- Button A
- Scan Tip

2. Choose language

● The interface defaults to English after booting up.

● There are eight icons in the main menu, which can be used by swiping and tapping on the screen with your finger.

● **If the English interface is used, there is no need to change it.**

● But If you need to change to another language, e.g. Chinese, you can search for 【Language】in the【Settings】interface;

● Select【Settings】;

- Select【Language】;

- Select【Traditional Chinese】then you can change to Chinese interface.

3. Connect to WIFI
- search for【WiFi】in the【Settings】interface;
- Select【WiFi】;

- Turn on the【WiFi switch】and choose the proper WIFI network to connect.

- When the【Network】icon appears in the upper right corner of the screen, the WIFI connection is successful.
4. Select left-handed/right-handed mode
- The interface defaults to right-hand mode (suitable for right-handed people) after booting.
- **If you use the right-hand mode, you don't need to change it.**

- But if you need to change to left-handed mode (suitable for left-handed people), you can search for【Pen holding mode】in the【Settings】interface；

- Select【Left hand mode】then you can change to left hand mode.

Scan for translation

1. How to change the reading and language setting
- Select the【Instant Translation】icon on the main menu to enter the translation interface.

- Swipe left on the right edge of the screen to pull out the reading and language setting menu.

- Select【Speech】, you can choose to read the original text or translation text.

- Select【Language】to change the translation language。

- Take translating Chinese into English as an example, first select 【Chinese(Traditional)】in【Scan test】.

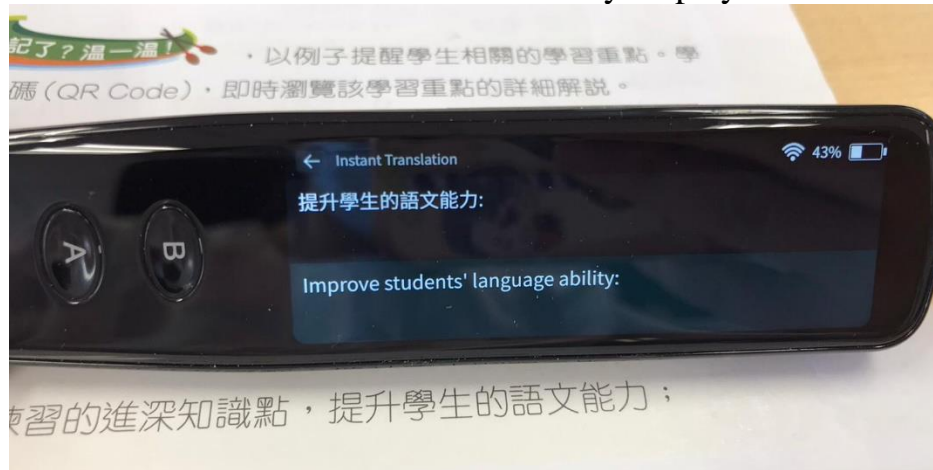

- Then select【English(UK)】in【Translated test】.

- Once the setting is completed, select the【Return】icon in the upper left corner to return to the translation interface.

2. How to scan for translation
- Select【Instant Translation】icon on the main menu to enter.
- Complete language and reading settings.
- Hold the Pen firmly, as you would hold a highlighter, while the Pen's tip is at an angle of around 70 degrees to the page. Align the Scan Tip on your pen to the center of the characters, and then press and drag the Pen in a straight line across the sentence like a highlighter. During the scanning, please make sure the white auxiliary light is on.

- The translation will be automatically displayed on the screen.

Connect to tablet/phone

1. How to install the【WorldPenScan Go】app
- Scan the QR code on your tablet/mobile phone or search for【WorldPenScan Go】in the app store to download and install.

WorldPenScan Go 4+
Penpower Technology Ltd.
Free

2. How to connect a tablet/phone
- Make sure that the tablet/mobile phone and Pen are connected to the **same WIFI network**.
- Select【App Connect】icon in the main menu.

- Open the mobile app, select【連接】(Connect) at the top right of the screen, and then select【連接】(Connect) when the prompt box shows up.

- After the connection is successful, please select the input language first. Take translating Chinese into English as an example, please select【繁體中文】(Traditional Chinese).

- Then scan with the Pen, the scan result will appear on the app. 。

- Select【翻譯】(Translation).

- Select the language you want to translated to, it will be 【英文】(English) in this case:

- Then you will get the translation result. You can save or share it.

Switch off:

1. Check the power supply
- Check the power supply before shutting down. If there is shortage of power, please charge it after shutting down. The charging port is on the side of the pen body.

2. Shut down
- Press and hold the power button (on the side of the pen body) for about 3 seconds, select【Poweroff】, the screen turns black and means successfully shut down. 。
